Season’s greetings, Austin ISD family.

As we enter the holiday season and prepare for 2020, Austin ISD is honored and proud to work with you to ensure all of our students are prepared for college, career and life. Every day, our community of 12,000 teachers and team members provides students with the opportunities, tools and 21st-century skills they need to be successful throughout their lives.

The 2017 Bond Program is an important part of our work, helping AISD make critical improvements to aging facilities. In addition to creating learning spaces that meet the needs of current and future generations of learners and leaders, bond projects support equitable programming so students across the district can thrive.

More than two years of intensive analysis, planning and community engagement informed the bond. Working with schools and industry experts, AISD outlined campus needs in its Facility Master Plan, a long-term, strategic plan. To implement the first phase of the 25-year roadmap, the district identified projects for the 2017 bond program—taking into consideration 5,000 unique pieces of community feedback from 500 engagement opportunities.

Since Austin voters approved the bond two years ago, we have kicked off all modernization projects in the program. Ten campuses are under construction and three are scheduled to open in early 2020.

In January, join the first of our campus communities to celebrate their grand openings:

- T.A. Brown Elementary School at 9 a.m. Wednesday, Jan. 8 at 7801 Guadalupe St. and
- Menchaca Elementary School at 9 a.m. Friday, Jan. 10 at 12120 Manchaca Road.

Today and every day, thank you for supporting our students and school communities as we create 21st-century learning spaces and reinvent the urban school experience together.

Follow the bond progress at www.AISDFuture.com and share your bond stories on social media using #AISDFuture.

We wish you the happiest of holidays. See you in 2020!

- **1** project in Pre-Design
- **11** projects in Construction
The Board of Trustees appointed volunteer residents to the Community Bond Oversight Committee. The CBOC works to ensure that the projects remain faithful to the voter-approved bond program scope of work. They also monitor and ensure the bond projects are completed on time, with quality and within budget.

Campus Architectural Teams are made up of campus and community members who provide guidance to the design and construction professionals as they design the schools.
