

Hill Elementary School Grand Opening Celebration

MARCH 1, 2022 | 9:00 A.M.

Welcome to Hill Elementary School!

The design of the new spaces at Hill Elementary School was a community-driven process. The design team gathered feedback from staff, families and community members to create spaces that put students first. You said you wanted to have flexible, collaborative spaces that work for learners today and can be adapted for the future. That's the school we're delivering to you.

We took inspiration from the existing building, so it still feels like the Hill Elementary you know and love but modernized for a new age. Plenty of windows provide natural light, and flexible furniture in addition to unique patterns and artwork make the classrooms visually interesting.

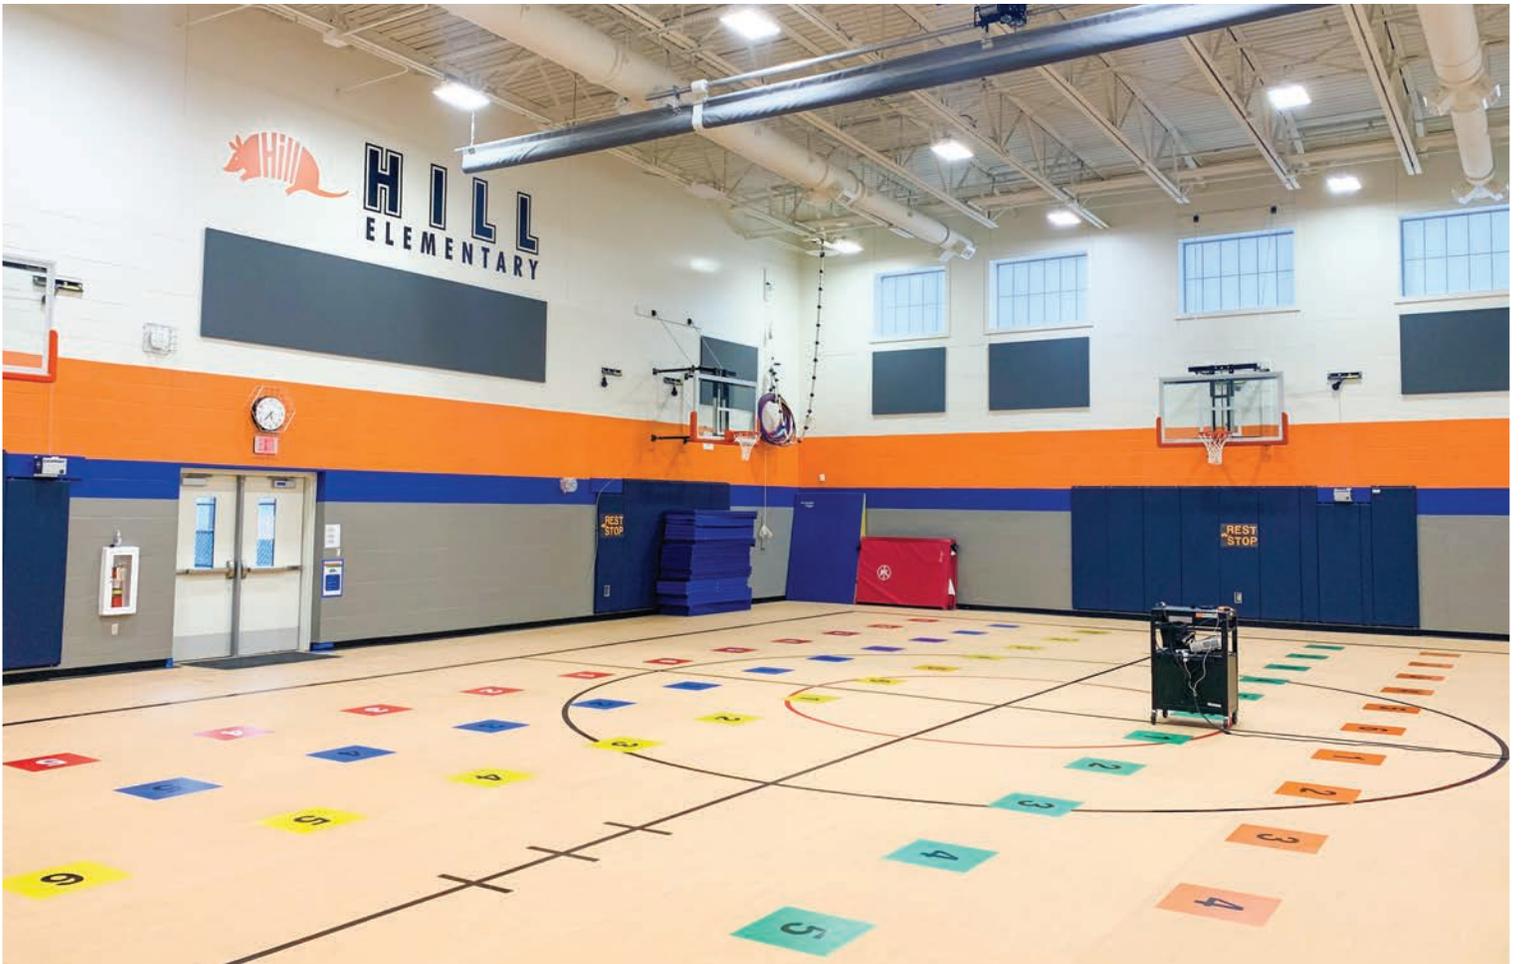

In our outdoor spaces, you'll find walking paths, a basketball court, natural shade, outdoor seating and age-specific play areas. A reimagined bus loop features separate lanes for buses and cars, making your pick up and drop-off more efficient. Covered walkways keep students out of the sun and rain as they wait for the buses.

We aimed to reduce environmental impact and create healthy learning spaces when designing and building Hill. The new addition includes energy-efficient lighting, water-saving fixtures, ample natural light, native and adapted landscape plants, and recycled construction material. The Hill modernization project is expected to receive certification from Austin Energy Green Building.

We promote and encourage participation by Historically Underutilized Businesses in the 2017 bond. AISD is proud to acknowledge the contributions these minority- and women-owned contractors made to the success of this project.

Congratulations to the Hill community, and welcome home, Dillos!

Program

Thank you for joining Austin ISD as we celebrate the grand opening of the modernized Hill Elementary School, which is part of the 2017 Bond Program.

Musical Performance **Anderson High School Band**

Welcome

Jack Drummond

Hill Elementary School Principal
